🧩 CAREER OBJECTIVE

Passionate Full Stack Developer with expertise in React.js, Next.js, Express.js, and Node.js, proficient in modern JavaScript (ES6+) and MongoDB. Seeking an opportunity to leverage my skills in building scalable, high-performance web applications while continuously learning and contributing to innovative projects.

🎓 EDUCATION

Bachelor of technology   2018 – 2022
Mahakal Institute of technology, Ujjain

🧠 SKILLS

Technical Skills
React.js, Next.js, Express.js, Node.js, Javascript(ES6+), MonogoDB

💼 PROFESSIONAL EXPERIENCE

Frontend Developer (ReactJS / NextJS)   2023 – present
Feamsco   Indore

React.js Developer   2022 – 2023
Uponly Tech   Navi Mumbai

📂 PROJECTS

Blacktiger - Cemet Website and Supplymint   2023 – present
Feamsco

- **Next.js Development:** Built SSR and SSG applications with Next.js, optimizing for performance, SEO, scalability, and fast load times.
- **Front-End Engineering:** Developed responsive, accessible UIs using React.js and Next.js with reusable components and modern design principles.
- **API Integration (Frontend):** Integrated RESTful and GraphQL APIs on the front-end using fetch, axios, SWR, and React Query for efficient data fetching.
- **WeChat Integration:** Implemented QR-based authentication, messaging, and broadcasting via WeChat Official Account API.
- **State Management:** Managed scalable state using Redux and React Context API for predictable state handling.

LoanLoom and Osbrm   2022 – 2023
Uponly Tech

- **Developing User Interfaces:** Proficient in building dynamic and interactive UIs using the **React.js**, including **hooks, components, state management, and lifecycle methods** to enhance user experience.
- **JavaScript Mastery:** Strong command over **JavaScript (ES6+), TypeScript**, and modern coding best practices to develop clean and efficient code.
- **Component-Based Architecture:** Expertise in designing and developing **reusable, maintainable, and scalable components** in React for optimized performance and code reusability.
- **State Management:** Experienced in managing application state using libraries like **Redux and Context API**, ensuring smooth and predictable data flow.
- **Front-End Technologies:** Solid understanding of **HTML5, CSS3**, and preprocessors like **SASS/LESS**, coupled with responsive design principles and cross-browser compatibility.
